7th June 2011

**RE: Rollers Doors at Shed 10**

To whom it may concern,

High Speed doors were engaged to supply and install 7 powder coated roller shutter doors to the Shed 10 project, in downtown Auckland. The project is planned to be an iconic venue for the World Cup Rugby event 2011.

Mel from High Speed Doors took a proactive role right from the start with his site measuring and ordering, and excellent communication. We were kept up to date with the progress and the doors were delivered and installed within our allocated timeframe. High Speed Doors checked all the doors and Quality Assurance check sheets were handed over before leaving site.

For quality communication, product and workmanship, High Speed Doors come thoroughly recommended for any project.

Kind Regards

Neil Ball  
Site Manager
